I've been diagnosed with fibromyalgia for 30 years. Early on I struggled to get help from doctors without success. I was lucky to find TyH on my own, and have been using your products for close to 25 years. **Multi-Gold™** and **Fibro-Care Cal™** have been my lifeline, and I credit them with my improved pain levels and functioning today. Thank you for your trusted supplements and health research that have enabled me to live a productive life!

I have been using **Fibro-Care™** for 2 months and I ran completely out 2 weeks ago. I went into a major flare and have been utterly miserable for a week now. I really wasn't sure that they were helping me, but now I KNOW they are! I got my new shipment today and I immediately took a dose. I also take **Omega-3 ES™** and I have had less joint pain while using that.

My doctor recommended omega-3 for my triglycerides but I hadn't been able to find a really good omega-3 locally that had the levels of DHA and EPA needed to help. Thank you for your amazing products. I'll never let my **Fibro-Care™** run out again!

I have taken the **Bluebird Softgels** because of pain in my lower lumbar area and knees. I realized the other day that I was not aware of my lower lumbar pain – it really helped! I'm now waiting for it to get down to my knees! **I highly recommend** Bluebird Softgels to your customers.

I love TyH's **Quercetin ES™** and order it often. It really helps prevent my allergy symptoms from kicking into full gear. I started taking it for fall allergies in Nevada, which were much worse without this product. Lately, I've been taking it year round, as I'm allergic to a lot of things and allergy symptoms can make the fibro symptoms worse.

I have been taking **Fibro-Care™** since 1996 when back to back auto accidents resulted in fibromyalgia and chronic myofascial pain syndrome. Lucky for me, I was referred to a doctor that believed in these conditions and started me on the supplements from TyH. I cannot live without **Fibro-Care™**. The difference in my body's ability to move fluidly is amazing! I can't thank you enough.

I have fibromyalgia (FM) and IBS went with it. I started taking **Fibro-Care Cal™** and **Olive Leaf ESE™** over 5 years ago. They have made a tremendous difference for me. NO more IBS and the FM symptoms are much better! I no longer have to take drugs, which made me a zombie! I definitely recommend your program!! But, it took me 8 months to notice much difference, so hang in there!!

I have been taking your Bluebird CBD tincture for a few months, and am very pleased with the results. I have fibromyalgia and take CBD at night, as it not only helps the pain, but also helps me sleep. I take another dose in the morning if needed. I highly recommend this product to anyone experiencing pain.

Fibro-Care™ is a wonderful product. I usually order 6 bottles and give away one each time to someone with FM who hasn't tried it.

Been taking TyH products for years. David and Margy sell the highest quality products!

I have been a TyH customer for 20 years since being diagnosed with chronic fatigue and fibromyalgia. I actually spoke with Margy when I first started using their products and she told me how and why they started TyH. She and her staff are always pleasant, informative and very helpful.

As many of you know this illness runs in phases, things change and needs change. However, I will NOT go without **Fibro-Care™**. I found out twice during the 20 years how much **Fibro-Care™** helps me when I ran out. Sometimes one wonders what is really helping but I won't go without **Fibro-Care™** or **David's Probiotics™** ever. **Fibro-Care™** helps lessen the pain throughout my body and I function better. The probiotics help my stomach to have less nausea, pain and irregularity.

Thank you for caring about your customers and being there.
